#### Instructions:

- All cigarette licensees must complete this Affidavit, regardless of whether they sold tobacco products during 2016.
- Do not include product which was stamped by another licensee.
- Where one company holds a number of licenses, each license holder must complete a separate Affidavit. The license holder that stamps or pays the Illinois OTP tax must complete Parts 3-5.
- Respond to each item. If a question does not apply, please explain.
- For Part 4, include sales information for participating manufacturers and non-participating manufacturers.
- Distributors are responsible for their own calculations. If computer reports are provided in response to Parts 4 and 5, they must include the total for 2016 by brand family.
- Attach additional pages as needed and where explanations are required.
- Cigarette Making Machine as used in Part 8 refers to the machines that are made available for use in a commercial setting, including retail locations and locations where the machines are made available to members of a "social club" or "non-profit." It does NOT include cigarette rolling machines intended and designed for use by individual consumers who do not intend to offer the resulting product for resale. Hot Rod Filling Station is an example of Cigarette Making Machine.

#### "Little Cigars":

- Effective July 1, 2013 Illinois legislation classifies little cigars as cigarettes for tax purposes and requires "Little Cigars" that meet the definition of "any roll, made wholly or in part of tobacco, where each roll has an integrated cellulose acetate filter and weighs less than 4 pounds per thousand and the wrapper or cover of which is made in whole or in part of tobacco" to be stamped with an Illinois cigarette excise tax stamp for those in packs of 20 or 25 and for those in packs of other than 20 or 25 to have the tax paid at the same rate as cigarettes.
- "Little Cigars" as used in Part 2 and Part 5 refer to any roll, made wholly or in part of tobacco, where such roll has an integrated cellulose acetate filter and weighs less than 4 pounds per thousand and the wrapper or cover of which is made in whole or in part of tobacco.
- Little Cigars also include any brands that continue to be taxed under OTP tax on or after July 1, 2013.
